**A Place to Belong**

Since 1950 Clearwater Garden Club members have sought to bring delight to Clearwater residents through outreach programs, community projects and social gatherings that promote the conservation and beautification of our natural surroundings, and a sense of community.

The varied talents, interests and personalities of Clearwater Garden Club members allow us to present a variety of fun events and worthwhile projects to members of the community in order to bring beauty and enjoyment throughout the city of Clearwater and the community at large.

**Fri. Oct. 10th 10:00 - Noon**  
**Coral Reef Restoration Program**  
**Join us for this informative talk**  
**and learn how YOU can help**  
**FFGC restore Florida's Coastal**  
**Reefs!**

FFGC supports The Coral Restoration Foundation located in Key Largo. It is a Not-for-Profit organization dedicated to the transplanting of coral from underwater nurseries where the corals are grown by cutting fragments from existing healthy corals. The fragments grow to sizes that are then taken and planted to restore dying and degraded reefs.

When these reefs grow, they will provide a habitat for all sorts of marine life including tropical fish.

Kathy Echevarria from Florida Federation of Garden Clubs will update and enlighten us as to the importance of the impact that this project is having on our environment, tourism, and education.
